## SECURITY SERVICES —

**Manned Guarding | Mobile Patrols  
CCTV Monitoring | Alarm Response  
Key Holding | Locking & Unlocking  
Concierge Security | Risk Assessments  
Void Properties | Fire Marshals**

**Established in 1992, Marpol delivers bespoke security solutions to both residential and commercial clients.**

Providing the highest standard of security services, we work with all manner of businesses, from the smallest local trader to the largest multinational corporation. Our security packages are tailored to meet the specific needs of our customers.

Ranking in the top 10% of the Approved Contractor Scheme, each member of the Marpol team is a fully licensed member of the Security Industry Authority.

Our management team are qualified and experienced in the financial and legal sectors, as well as the police and armed forces. This ensures unrivalled professionalism backed by relevant and complimentary expertise

**25+ YEARS OF EXCELLENT SERVICE**

**Having fully trained, licensed and experienced manpower on the ground is a highly effective deterrent to thieves and vandals, which makes it part of our core services.**

## **MANNED GUARDING —**

Whether you need them during the day, outside of office hours, or on a 24 hour shift basis, having guards manning your building sends a clear sign that your business premises are protected. This in itself is often a sufficient deterrent, but our fully trained and licensed guards have the relevant skills and experience to deal with intruders.

## **MOBILE PATROLS —**

A key aspect of our North West security network is our mobile patrols.

Spread across the region to cover all of our clients' sites, they are linked to our central monitoring team. This allows for an immediate and effective response from well trained and highly experienced security professionals should any incident occur at your property.

**Dedicated security doesn't always mean having guards on the premises. Between our state-of-the-art CCTV surveillance system and our alarm response personnel you can have peace of mind round the clock.**

## CCTV —

At Marpol, we install bespoke CCTV systems and run an advanced remote monitoring service, utilising the very best in CCTV technology to keep a watchful eye on your premises 24/7. We can use your existing camera set-up or install a whole new system to eliminate any weaknesses..

With a dedicated team keeping careful watch and our mobile patrols ready to step in should circumstances require them, you've never been in safer hands.

## ALARM RESPONSE —

Having your member of staff respond to an out-of-hours alarm is rarely ideal. Answering false alarms quickly becomes tiresome and, in the worst-case scenario, answering a genuine security breach can put them in immediate danger.

At Marpol, our alarm response professionals are all dedicated security personnel with years of experience behind them, fully-trained to handle these situations.

**Being a keyholder for your premises is a great responsibility and the role comes with its own personal risk. Ensure the safety of your team by utilising Marpol's keyholding, locking and unlocking services.**

## LOCKING & UNLOCKING —

Having an employee lock and unlock your premises can place them at real risk by would-be intruders targeting your company.

Our locking and unlocking service has a security professional on hand at opening and closing time, ensuring the safety of your team. This service also eliminates complications arising from your keyholding staff changing shifts or taking a sick day at the last minute. We're always there when you need us.

## KEYHOLDING —

Keyholders are expected to attend your place of work in the event of any security breach taking place out of hours.

Our fully-licensed security professionals are trained to deal with these situations.

They will ensure that the building and perimeter are clear, reset the alarm, and contact/wait for the police, if their presence is required.

**Security isn't just an out-of-hours necessity. Having dedicated security operatives manning your front-of-house or other reception area can make staff and visitors alike feel safer. A thorough risk assessment will help determine if this will be of value to your company.**

## **CONCIERGE SECURITY —**

Our concierge security are polite and smartly-presented security professionals with years of experience in the industry. They will act as the face of your business, welcoming visitors and staff alike.

As fully-licensed security personnel, they will also prevent any unauthorised access to your company premises.

## **SECURITY CONSULTANCY & RISK ASSESSMENTS —**

Our cost free, obligation free initial assessments provide an in-depth appraisal of the security requirements for your building.

With our decades of experience in the field, we can identify vulnerabilities in your current system and make recommendations to ensure the safety and security of your premises, people, and assets.

## VOID PROPERTIES —

Many property crimes in the North West are conducted against vacant and void properties, and with good reason. Often lacking any kind of security presence, they are seen as soft targets for vandals, arsonists, thieves, and squatters. We offer several ways to combat this problem, from boarding up doors and windows and installing a monitored CCTV system, to organised regular checks by our mobile patrols, or even permanent manned security.

## FIRE MARSHALS —

Fire safety is of paramount importance to any company and involves more than checking alarms and extinguishers.

Our fully-trained fire marshals will run a complete fire risk assessment for each of your buildings, as well as arranging and conducting fire drills for your employees and fire safety coaching for your on-site fire wardens.

**At Marpol we give equal weight to all properties we're instructed to protect. This includes looking after vacant premises around the North West, as well as ensuring good fire safety practices in occupied buildings.**

## INTELLIGENT SECURITY SOLUTIONS DESIGNED TO PROTECT YOUR PEOPLE AND YOUR PREMISES

Marpol creates unique security solutions tailored to meet the specific needs of you and your company. Any of our high-quality security services can be incorporated into a single, integrated package which is constantly reviewed for best protection.

## COMPLETE SECURITY ACROSS THE NORTH WEST

From our HQ, our rapid mobile patrols and comprehensive remote monitoring services cover the whole of the North West.

For an obligation free risk assessment, entirely free of charge please contact Marpol via phone or email.
